

**Dear students and parent(s) / guardian(s) in S6**

**8 September 2026**

Summative assessment is carried out in each subject in the latter part of each semester. These assessments are called B-tests, and a student is awarded a B-mark based on their performance at each test. An overview of these B-marks will be made available in the school report published in January and June.

In June, students will sit all tests during a short period of 5-10 school days. All teaching will be cancelled during those days. The tests are all written and will be harmonized across language sections, meaning that e.g. the math test will be the same for both 5p-classes.

In November, December and January, B-tests will be carried out during class time. The format and length are up to the individual teacher, and students will be informed about the specifics by their subject teachers well in advance of the test.

The dates of the B-tests in the first semester have now been finalized, and you can find these on the next page.

Please note that absence without a valid reason will lead to a B-mark of 0.

In case of sickness, please contact me at [s37b@kk.dk](mailto:s37b@kk.dk) immediately. Confirmation from an adult from the household is enough documentation in S5 and S6.

Kind regards,

Hans
